PROFESSIONAL SUMMARY

Aspiring web developer with hands-on experience in building responsive web applications and a passion for scalable solutions. Selected among the top 25 teams at the International Project Expo TechNovate, organized by Manipal University Jaipur, for innovative problem-solving. Passionate about staying updated on the latest trends and contributing to innovative projects.

EDUCATION

Bachelor of Technology, CSE

Career Point University Kota (Raj)

July 2026

CGPA: 9/10

INTERNSHIP

Fotographiya

March 2025 - May 2025

React Js Developer

- Built and maintained responsive, user-friendly web applications using React.js, improving overall UI/UX.
- Optimized application performance by implementing reusable components.
- Collaborated with designers and backend developers to deliver features aligned with client requirements.
- Integrated APIs to ensure smooth data flow and dynamic content rendering.

PROJECTS

YieldStone: Real-Estate Platform [🔗](#)

- Created a platform for YieldStone to showcase its products and features to the clients.
- Developed using React.js with a clean and responsive design for a smooth user experience.
- Applied component-based architecture to improve scalability and maintainability.
- Deployed the website on Vercel, ensuring reliable hosting and seamless accessibility for the client.

FoodBridge: Food Donation Platform [🔗](#)

- Developed a full-stack platform to connect food donors with recipients, reducing waste.
- Features: Donor page (CRUD operations), food claim system, order history tracking.
- Tech: React.js (UI), Express.js (REST APIs), MongoDB (database)
- The main aim of this project was to collect surplus foods from the donor and then give it to the people who actually need it. Hence, benefits to people and environment both.
